

WEBELO SCOUT ACTIVITY DAY 2019

Presented by:
Asbury Woods Explorer Post 808

Dear Cub **Scout Leader**,

The members of Explorer Post 808 invite you to bring your Webelo Cub Scouts to Asbury Woods for a day of environmentally oriented activities. The activities will fulfill the Webelo requirements for “Into the Wild” and a majority of the “Into the Woods” Arrow of Light Adventures. The activities we have planned are as follows:

“For the Birds”: In this activity the Scouts will learn:

1. Common birds found in our area in the fall.
2. How and why birds migrate, and about the major flyways that go through our area.
3. How protecting wildlife habitats are important in protecting wildlife and what happens when habitats are destroyed, and not always by people.
4. Make a simple bird feeder to take home.

“Into the Woods Adventure”: On this Nature Hike the Scouts will learn:

1. The types of animals and plants found in the habitats at Asbury Woods. Discuss and hopefully observe the animals and how they are adapted to survive in their environment. Also, the difference between native, non-native and invasive plants and animals.
2. Identify and learn the uses of 6 trees and 6 non-tree species of plants. (The trees include both trees with leaves that are flat, (deciduous), or ones shaped like needles, (conifers).
3. Learn the parts of the tree and their function. Learn how plants make their own food, (sugar).
4. Learn the importance of trees to us and the environment as a whole.
5. Learn useful information, like how to identify Poison Ivy, and why you wouldn’t want to use a black cherry twig to roast your marshmallows.

“Live Animals, (up close and personal)”: In this activity the Scout will learn about, meet and touch.

1. The native animals we have on exhibit at Asbury Woods, (Mammals, Fish, Reptiles, Amphibians, Insects and Birds)
2. Learn about extinction and endangered species, as the roll of the PA Game and Fish Commission, and their own role in protecting animal and plant habitats.
3. Make observations of animals in their habitats.
4. Receive information on how to make their “micro habitat” within a terrarium.

“Food Chain Game”: In this activity, the Scout will learn:

1. Producers/Levels of Consumers/Decomposers/Scavengers
2. Importance of the correct balance and the Food Chain Pyramid
3. The impact of humans on habitats, food chains, and the entire ecosystem.
4. Success stories of how people fixed the problems they caused.

Each boy will receive a certificate showing that they completed the activities.

Who: Cub Scouts: Webelos

When: **Saturday, October 26, 2019** Session #1: 8:45 am to 12:15 pm

(Note: An afternoon session from 12:45-4:15 will be added if the morning session is full)

Where: **Andrew J. Conner Nature Center at Asbury Woods, 4105 Asbury Rd. Erie, PA 16506.**

Phone: 835-5356

Cost: \$8.50per Scout (Cost includes materials for activities and a certificate of participation)

SCHEDULE: Morning Session:

1. **8:30 am:** Leaders check your scout pack in at the Information Counter in the Nature Center. There will be a brief introduction at 8:45am. (Note: There will be a bin, with your group number on it to put the bottom of the pop bottle they brought to use to make their bird feeder when you get to that station in the rotation of activities.
5. **9:00 am to 12:15 Noon:** Four 40 minute activities. The packs will be grouped with other packs of similar age to form four groups that will rotate through the four activities until they have completed all four of the activities. (maximum group size is 25).

Afternoon Session:

1. 12:30 pm: Check in. Same procedure as stated above for the morning session.
2. 12:45 pm to 4:15 pm: Repeat of morning session.

SCOUT ACTIVITY DAY
